Stanford Research Institute (SRI) گزارشهای جدید موسسه

Process Economics Program (PEP)

- Dimethyl Ether (DME) From Coal/ 2009 No. 245 B
- Advances in Ammonia Technology/ 2009 No. 44 B

PEP Review Reports

- Integrated Production of Toluene Diisocyanate From Toluene No. 2009- 3
- Biodiesel From Algae No. 2009- 9
- Biodiesel VIA Heterogeneous Catalysis Catilin Process No. 2009-5
- Polyethylene Production Bya Solution Process Using Loop Polymerization Reactor No.
- C3- C4 Oligomerization For Gasoline No. 2009-14
- Natural Gas Recovery From Methane Hydrates VIA Depressurization No. 2009-13
- Cyclic Olefin Copolymers (COC) No. 2009-7
- Carbon Dioxide Compression 2009-12
- Propylene Oxide By The Basf- Dow HPPO Process No. 2009-4
- PEP Cost Index Update 82/ Dec. 2009

PEP Reports

- Coal To Gasoline No. 271
- Thermochemical Cellulosic Ethanol No. 270
- Polysilicon For Solar Wafers No. 272
- Higher Alcohols From Syngas, Technology Survey No. 268
- Advanced Carbon Capture No. 180 C
